(g) Electronic Fund Transfers Initiated by Third Parties

You may authorize a third party to initiate electronic fund transfers between your account and the third party's account. These transfers to make or receive payment may be one-time occurrences or may recur as directed by you. These transfers may use the Automated Clearing House (ACH) or other payments network. Your authorization to the third party to make these transfers can occur in a number of ways. For example, your authorization to convert a check to an electronic fund transfer or to electronically pay a returned check charge can occur when a merchant provides you with notice and you go forward with the transaction (typically, at the point of purchase, a merchant will post a sign and print the notice on a receipt). In all cases, these third party transfers will require you to provide the third party with your account number and financial institution information. This information can be found on your check as well as on a deposit or withdrawal slip. Thus, you should only provide your financial institution and account information (whether over the phone, the internet, or via some other method) to trusted third parties whom you have authorized to initiate these electronic fund transfers. Examples of these transfers include, but are not limited to:

Electronic check conversion. You may authorize a merchant or other payee to make a one-time electronic payment from your checking account using information from your check to pay for purchases or pay bills.

Electronic returned check charge. You may authorize a merchant or other payee to initiate an electronic fund transfer to collect a charge in the event a check is returned for insufficient funds.

UNAUTHORIZED TRANSFERS

(a) Consumer Liability. Tell us at once if you believe your card and/or code has been lost or stolen, or if you believe that an electronic fund transfer has been made without your permission using information from your check. Telephoning is the best way of keeping your possible losses down. You could lose all of the money in your account (plus your maximum line of credit). We will be liable for all unauthorized transfers unless the unauthorized transfer was due to the loss or theft of your card and/or code. If due to the loss or theft of your card and/or code, and you notify us within 60 days of when the unauthorized transfer appears on the statement, you can lose no more than \$50 if someone used your card and/or code without permission.

If you do **NOT** notify us within 60 days after the unauthorized transfer appears on your statement, and we prove that we could have stopped someone from using your card and/or code without your permission if you had told us within 2 days of when you discover the loss or theft of your card and/or code, you could lose as much as \$500 for unauthorized transfers that appear on the statement.

Also, if your statement shows transfers that you did not make, including those made by card, code, or other means, tell us at once. If you do not tell us within 60 days after the statement was mailed to you, you may not get back any money you lost after the 60 days if we prove that we could have stopped someone from taking the money if you had told us in time.

If a good reason (such as a long trip or a hospital stay) kept you from telling us, we will extend the time periods.
